- Guidance & Protocols

# Protocols & Guidance

- **Arrival / Dismissal / Recess / Field Trip Guidance**

CPS has issued clearer guidance regarding activity on school grounds or on the same block as the school vs. in the broader community.

- **On school grounds/same block:** call command center, bring students and staff inside, use judgment on letting non-students/staff inside, secure doors
- **1+ blocks away:** call ICIRR, monitor activity to see if it approaches school

- **Whole School Safety Acceleration**

- We are working closely with our Whole School Safety Steering Committee to identify and assist schools that are seeing an increased level of federal activity, to implement the foundational principles of Whole School Safety.
